SUPPLEMENTAL INFORMATION:

ATS is a licensed property broker. Its License No. MC-181173, issued October 23, 1985, authorizes ATS to conduct operations, in interstate or foreign commerce, as a broker, arranging for the transportation of general commodities (except household goods), between points in the United States.

Mr. Bender proposes to control ATS through ownership of fifty percent or more of all of its issued and outstanding stock.

Our regulation at 49 CFR 1181.32(b) provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest."

Applicant states that his acquisition of control of ATS will have no detrimental effect upon the services now provided by ATS, and that the present officers and employees of ATS will continue in their respective positions following approval so that there will be no change in day-to-day activities.

Public comment is invited on the question, whether the change in control of ATS is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision, in accordance with 49 CFR 1181.32(b).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Atlas is authorized by its lead certificate to transport pig iron, in bulk, asphalt, felt shingles and rolls, roofing cement, pulp-board, agricultural tractors and attachments from ports of entry on the United States-Canada Boundary line to points in the northeast and midatlantic States. The Sub-No. 1 Certificate authorizes transporting commodities the transportation of which requires the use of special handling or equipment, between ports of entry on the International Boundary line between the United States and Canada on the one hand, and on the other, points in 17 States and the District of Columbia.

Quebec is controlled by TNT Quebec, Inc. (TNT) (MC-174921), which in turn is controlled by TNT Canada, Inc. (Canada) (MC-111307), which in turn is controlled by All Trans Canada, Inc. (All Trans) a noncarrier, which in turn is controlled by TNT Limited (Limited) a noncarrier, which controls numerous other carriers.

The continuance in control by TNT Transport Group, Inc. (Transport) a noncarrier, which is controlled by Limited, of Overland Express International, Inc. (Overland) (MC-190459) and the other carriers controlled by Limited was exempted from prior approval on February 12, 1986 in MC-F-17094.

Although applicant originally filed for a continuance in control exemption, this is unnecessary because the exemption here of the purchase transaction from prior approval is done in the context of the control situation disclosed in the MC-F-17094 exemption proceeding.

EX PARTE NO. MC-43

LEASE AND INTERCHANGE OF VEHICLES BY MOTOR CARRIERS

****

HALL TRUCKING CO., INC., MC-160805
HALL BROTHERS TRANSPORTATION CO., INC., MC-145926

Decided: August 18, 1986

Hall Trucking Co., Inc., MC-160805 and Hall Brothers Transportation Co., Inc., MC-145926, petition for waiver of Section 1057.22(a) and a portion of Section 1057.22(c)(2) of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057) when equipment is exchanged between themselves.

We Find:

Petitioners are regulated carriers of property performing transportation in interstate and foreign commerce within the United States under permits and certificates issued by this Commission. At the time common control took place, the combined revenues of the petitioners did not exceed $2,000,000, therefore, under 49 U.S.C. 11343(d)(1), Commission approval was not required.

Hall Trucking Co., Inc., is primarily a less-than-truckload motor carrier of general commodities. Hall Brothers Transportation Co., Inc. is an established truckload carrier of automotive related commodities. A total of approximately 40 vehicles are operated by the petitioners. Although the operations are distinct they are jointly controlled by a single management. Records are available that enable verification of changes in control and responsibility for the operation of each vehicle.

Petitioners are seeking relief from the specific leasing regulations which they have found burdensome and unnecessary when equipment is exchanged between commonly controlled companies. The sought relief will result in improved equipment utilization, reduced cost, and improved service.

Since one of the burdens from which relief is sought is that of issuing equipment receipts, it should be noted that Section1057.22(c)(4) requires such receipts in connection with the use of master leases. For this reason, any waiver granted should, for consistency in the event such leases are desired, include the receipt requirements of Section 1057.22(c)(4) as well as 1057.22(c)(2).

We further find that the granting of the petition, modified to include Section 1057.22(c)(4), is consistent with past Commission practice and in keeping with its obligations under the National Transportation Policy at 49 U.S.C. 10101.

It is Ordered:

1. The petition of Hall Trucking Co., Inc., MC-160805 and Hall Brothers Transportation Co., Inc., MC-145926, for waiver of Section 1057.22(a) and Sections 1057.22(c)(2) and 1057.22(c)(4),as they relate to equipment receipts, of the Lease and Interchange of Vehicles regulations (49 C.F.R. Part 1057), is granted for the exchange of equipment between themselves as long as common control exists.

2. During the period of common control, all provisions of Section 1057.22, other than those specifically waived above, will be applicable to the exchange of equipment between the petitioners.

3. Contractual relationships between owner-operators and the individual carriers will be governed by the complete leasing regulations of 49 C.F.R. Part 1057, Subpart B, Sections 1057.11 and 1057.12.

By the Motor Carrier Leasing Board, Board Members Bernard Gaillard, William J. Love, and Heber P. Hardy.

NOTICE: This decision permits the operation of vehicular equipment under lease between the jointly controlled carriers listed, with displayed vehicle identification of only the owner. (The term owner includes a person who, without title, has the right to exclusive use of the equipment.) There must be in the vehicle a copy of a signed agreement between the carriers. However, since joint control exists between the carriers, no receipt indicating possession of the vehicle is required. If an owner operator is involved, there must be in the vehicle a copy of a valid owner-operator/carrier lease signed by one of the carriers named above.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the acquisition of control by CTI Resources, Inc. (CTI) a non-carrier, of Computer Transport of Georgia, Inc., (Computer) (MC-144073 and MC-151375) and Bayside Express, Inc. (Bayside) (MC-121839). Ronald L. Krise owns all of the issued and outstanding shares of Computer which, in turn, controls Bayside. Control of Bayside by Computer was approved by the Commission in Docket No. MC-F-15838.

This transaction involves a corporate reorganization in which Mr. Krise will deliver to CTI all his shares of capital stock of Computer (and two intrastate carriers and a non-carrier) in exchange for all the issued and outstanding shares of CTI. As a result, CTI will directly control Computer and indirectly control Bayside.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

ROADWAY SERVICES, INC.--CONTINUANCE IN CONTROL EXEMPTION--A.C. TRANSPORT, LTD.

Petitioners' representative:
William O. Turney
99 River Drive
Tequesta, FL 33469

Comments should refer to No. MC-F-17693.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the continuance in control by Roadway Services, Inc. (Services), a non-carrier holding company, and, in turn, by Services' non-carrier parent, The Roush Voting Trust, through Services' subsidiary, Roadway Services (Canada), Ltd. (RSCL), a non-carrier holding company, of A.C. Transport, Ltd. (A.C.), a Canadian motor carrier that recently sought approval in No. MC-F-17525 to acquire the operating authority of its former affiliate Nugget Trucking, Inc. (Nugget), in No. MC-157128, that authorizes the transportation of Mercer commodities between points in Arkansas, Arizona, Colorado, Idaho, Kansas, Mississippi, Montana, Nebraska, Nevada, New Mexico, North Dakota, Louisiana, Oklahoma, Texas, Utah, and Wyoming, and in No. MC-157128 (Sub-No. 1), that authorizes the transportation of general commodities (except classes A and B explosives, household goods, and commodities in bulk), between points in the United States (except Alaska and Hawaii).

The application in No. MC-F-17525 inadvertently was published in the ICC Register on June 12, 1986, as a small carrier transfer application under 49 U.S.C. 10926 and 49 CFR 1186, but should have been treated as a petition for a purchase exemption under 49 U.S.C. 11343(e). However, the exemption granted here is intended to cure that defect by also exempting A.C.'s purchase of Nugget's above-specified authority.

RSCL also controls Camionnage Roadway Express (Quebec), Ltee, (MC-140165), Roadway Express, Ltd. (MC-96134), Roadway Services (Western), Ltd. (MC-191195), and Roadway Express (B.C.), Ltd. (formerly Neu Way Distributing Inc.) (MC-191111).

Services also controls Roadway Express, Inc. (MC-2202), Roadway Package System, Inc. (MC-179059), Spartan Express, Inc. (MC-62824), Nationwide Carriers, Inc. (MC-117940), and Roberts Express, Inc. (MC-141898).

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications fil_W__to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

FROM 49 U.S.C. 11343

AGENCY: Interstate Commerce Commission

ACTION: Notice of Exemption

SUMMARY: Pursuant to Ex Parte No. 55 (Sub-No. 57), Exemption of Certain Transactions from 49 U.S.C. 11343 (not printed), decided November 21, 1984; 49 F.R. 48314 (December 12, 1984), the Commission has exempted transactions among motor carriers of property and between them and noncarriers otherwise subject to regulation under 49 U.S.C. 11343(a)(1)-(5). The following Notices of Exemption are being published in order to permit employees to oppose a transaction on the grounds that they may be adversely impacted thereby, and to permit any interested person to oppose a transaction on the grounds that it may be anticompetitive. If no opposing comments are received in the period specified below, the Notices of Exemption published below shall be the final action of the Commission, and parties may consummate the transaction described in the Notice 60 days after the date of publication. If opposing comments are received, a decision addressing the comments and either denying the exemption or granting it, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

ADDRESSES: Send comments to:

(1) Office of the Secretary
Case Control Branch
Interstate Commerce Commission
Washington, D.C. 20423

and (2) Petitioners representative(s), as shown below.

DATES: Comments are due 30 days after publication of the Notice of Exemption.

FOR FURTHER INFORMATION CONTACT:

Warren C. Wood
(202) 275-7977

SUPPLEMENTAL INFORMATION:

Further information concerning the transaction proposed for exemption is contained in the Notice of Exemption. A copy of the Notice of Exemption may be obtained free of charge by contacting petitioner's representative. In the alternative, the Notice of Exemption may be inspected at the offices of the Interstate Commerce Commission during usual business hours.

For transactions involving the merger of two or more carriers or the purchase of motor carrier operating authority, petitioners may obtain revised certificates by notifying the Commission that the transaction has been consummated and by complying with the following administrative requirements set forth in the Code of Federal Regulations: insurance (49 CFR 1043) (liability: ICC Form BMC-91 or BMC-91X and cargo: ICC Form BMC-34), designation of process agents (49 CFR 1044) (ICC Form BOC3), and tariffs (49 CFR 1312).

JOHNSON CONTROLS, INC. -- MERGER EXEMPTION -- HOOVER UNIVERSAL, INC.

Petitioner's representative:
Terrence D. Jones, Esq.
Keller and Heckman
1150 17th Street, N.W.
Suite 1000
Washington, DC 20036

Comments should refer to No. MC-F-17674.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the merger of Hoover Universal, Inc. (Hoover) (MC-165259), of Ann Arbor, MI, into its parent Company, Johnson Controls, Inc. (Johnson) (MC-190909), of Milwaukee, WI, for management, control, and operation. Johnson, a major manufacturer of such items as automative replacement batteries, also holds motor common carrier authority in No. MC-190909, authorizing the transportation of general commodities, with the usual exceptions, between points in the contiguous United States. Hoover, also a diversified manufacturing company, is a wholly-owned subsidiary of Johnson. It currently holds: (1) a certificate in No. MC-165259, authorizing the transportation of general commodities, with the usual exceptions, between points in the contiguous United States; (2) a Sub-No. 1 license, authorizing the brokerage of general commodites (except household goods) between points in the United States; and (3) a Sub-No. 2 permit, authorizing the transportation of general commodities (with the usual exceptions), between points in the United States, under continuing contract(s) with commercial shippers or receivers of such commodities. Hoover also owns all of the stock of Cadiz Railroad Company (Cadiz), a Class III rail carrier subject to the Commission's jurisdiction. By virtue of its ownership of Hoover, Johnson therefore also indirectly controls Cadiz.

Also as part of this transaction, Hoover will transfer its Sub-No. 2 permit to Johnson, and Johnson will directly acquire all of Cadiz' stock resulting in Johnson's direct control of the railroad. Because Johnson already holds nationwide certificated general commodities rights, Hoover will not transfer its lead certificate to Johnson. Upon final consummation of the merger, Johnson will be the surviving corporation.

The Commission has exempted Johnson's acquisition of control of Hoover and, in turn, Cadiz, in No. MC-F-16479. Its has also approved Johnson's acquisition of control of Hoover as a broker in No. MC-FC-82872. NOTE: The parties are seeking authorization for the transfer of Hoover's Sub-No. 1 broker license to Johnson in a separate proceeding.

Any interested person may oppose a motor carrier transaction on the grounds that it may be anticompetitive. Any interested person may oppose a broker transaction on the grounds that it is contrary to the public interest. If no opposing comments are received in the period specified below, the notices published shall be the final action of the Commission and the parties may consummate the transaction described in the Notice 60 days after the date of publication. No decision will be issued unless opposing comments are received. If opposing comments are received, a decision addressing the comments and either denying or granting the application, with or without conditions, will be served. Parties must await issuance of that decision before consummating an opposed transaction.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Release Rates Application No. FF-458

AGENCY: Interstate Commerce Commission.

ACTION: NOTICE. Release Rates Application No. FF-458

SUMMARY: Air Express International, Inc., which does not presently hold freight forwarder authorization from this Commission but has filed an application for such authority, seeks to establish and maintain released rates on freight, all kinds (FAK) coextensive with whatever operating authority is granted. The sought released values are $50 for any shipment of 100 pounds or less and 50 cents per pound for any shipment over that weight. Greater values may be declared subject to an extra charge of 30 cents per $100 of value in excess of the base values, with carrier liability for such higher values to be based on the ratio of declared to actual value. For example, if the actual value of a shipment is $10,000 and the shipper declares a value of $5000 and actual damage is $4000, the carrier's liability would be $2000.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

MC-142530 (Sub-No. 4) (republication), filed January 6, 1986, published in the March 10, 1986, issue of the ICC Register and republished in this issue. Applicant: COMMAND BUS COMPANY, INC., 626 Wortman Avenue, Brooklyn, NY 11208. Representative: Douglas Cooper, 41 Madison Avenue, New York, NY 10010, (212) 696-9700.

As previously published, applicant sought authority to operate as a common carrier, by motor vehicle, in interstate or foreign commerce, over irregular routes, in charter and special operations, transporting passengers, between points in the United States (except Alaska and Hawaii) as a privately-funded carrier. In a decision decided September 3, 1986, the Commission found applicant fit, willing, and able to provide the proposed transportation and to comply with statutory and administrative requirements, subject to certain conditions. NOTE: The purpose of this republication is to identify applicant as a publicly-funded carrier and process the application under the "public interest" standards, rather than the "fitness-only" standards. Also, the person or persons who appear to be engaged in common control of applicant and another regulated carrier must either (1) file an application under 49 U.S.C. 11343(a) or (2) submit an affidavit indicating why such approval is not necessary, to the Secretary's Office.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

CROWLEY MARITIME CORPORATION--CONTINUANCE IN CONTROL EXEMPTION--
PACIFIC ALASKA FUEL SERVICES, INC., D/B/A ARTIC LIGHTERAGE COMPANY

Petitioners' representative:
Leo C. Franey
One Thomas Circle, N.W.
Washington, DC 20005

Pleadings should refer to No. MC-F-17388.
Decided: September 3, 1986.

Under 49 U.S.C. 11343(e), the Commission's regulations in Ex Parte No. 400 (Sub-No. 1), Procedures Handling Exemptions Filed by Motor Carriers, 367 I.C.C. 113 (1982), 47 Fed Reg. 53303 (November 24, 1982), the Interstate Commerce Commission exempts from the requirement of prior review and approval under 49 U.S.C. 11343(a)(5), the continuance in control by Crowley Maritime Corporation (Crowley Maritime), a non-carrier holding company, of Pacific Alaska Fuel Services, Inc., doing business as Artic Lighterage Company (Pacific Alaska), upon the latter's institution of operations as a carrier pursuant to the initial motor carrier authority it seeks in No. MC-192076 and its initial water carrier authority in W-1446. Pacific Alaska is wholly-owned by Crowley Constructors, Inc., a non-carrier which, in turn, is wholly-owned by The Harbor Tug and Barge Company (Harbor Tug), which, in turn, is wholly-owned by Crowley Maritime. Harbor Tug also controls Harbor Carriers, Inc. (Harbor Carriers) (W-379). A grant of the authorities sought by Pacific Alaska will result in control of another regulated carrier by Crowley Maritime which presently controls three regulated carriers, (1) Puget Sound Tug & Barge Company (MC-177875 and W-1423), a wholly-owned subsidiary of Crowley Maritime, (2) Trailer Marine Transport Corporation (MC-141323), a wholly-owned subsidiary of Crowley Towing & Transportation Company, a non-carrier, which, in turn, is a wholly-owned subsidiary of Crowley Maritime, and (3) Harbor Carriers.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

49 CFR Part 1312

EX PARTE NO. MC-169 (Sub-No. 1)

AUTOMATIC EXPANSION OF ZONE OF RATE FREEDOM FOR MOTOR COMMON CARRIERS OF PROPERTY AND FREIGHT FORWARDERS

AGENCY: Interstate Commerce Commission.

ACTION: Final rule.

SUMMARY: The Commission has adopted rules increasing the zone of rate freedom (ZORF) for motor carriers of property and freight forwarders (49 CFR Part 1312) under 49 U.S.C. 10708(d)(2). The present ZORF is increased from 15 percent to 20 percent on the effective date and thereafter the ZORF is increased by 5 percentage points each year on the anniversary of the effective date, in the absence of Commission action to the contrary.

This rule will satisfy the goals of the national transportation policy by providing carriers with added flexibility to change rates quickly in response to the demands of customers. It will also enable carriers to respond promptly to changes in costs, thereby providing increased flexibility to earn adequate profits. Thus, the rules will enhance the carriers' ability to operate in a financially sound manner.

EFFECTIVE DATE: The rules will be effective on October 23, 1986.

FOR FURTHER INFORMATION CONTACT:

Lance Jensen (202) 275-7970 or Louis E. Gitomer (202) 275-7691

SUPPLEMENTARY INFORMATION:

Proposed rules in this proceeding were published at 51 FR 6288, February 21, 1986.

The Commission's decision contains additional information. To purchase a copy of the decision, write to T.S. InfoSystems, Inc., Room 2229, Interstate Commerce Commission Building, Washington, DC 20423, or call (202) 289-4357 in the Washington, DC metropolitan area or (800) 424-5403, toll-free, outside the DC area.

This action will not significantly affect either the quality of the human environment or the conservation of energy resources.

The Commission certifies that the rules will not have a significant economic impact on a substantial number of small entities. The rules simply eliminate regulatory lag in connection with certain rate increases.

The index terms for 49 CFR Part 1312 are: buses, freight forwarders, maritime carriers, motor carriers, passenger vessels, pipelines, and railroads.

Decided: September 4, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley. Commissioner Lamboley concurred in the result with a separate expression. Vice Chairman Simmons dissented with a separate expression.

Noreta R. McGee
Secretary

Part 1312 - REGULATIONS FOR THE PUBLICATION, POSTING AND FILING OF TARIFFS, SCHEDULES AND RELATED DOCUMENTS

1. The authority citation for Part 1312 is revised to read as follows:

AUTHORITY: 49 U.S.C. 10321, 10708, and 10762; 5 U.S.C. 553.

§1312.4 Filing tariffs.

x x x x x

(b) x x x

(7) x x x

(ii) If the application of the proposed rate, charge, or provision would result in an increase in charges, the letter must state that the proposed increase in the aggregate is not above the rate in effect 1 year prior to the effective date of the proposed increase by more than the proper percentage in paragraph (vi) of this section.

(iii) If the application of the proposed rate, charge, or provision would result in a reduction in charges, the letter must state that the proposed reduction in the aggregate is not below the lesser of the rate in effect on July 1, 1980 (or the date, if after July 1, 1980, on which a rate, charge, or provision first became effective for a service not provided by the freight forwarder, or the carrier, on July 1, 1980), or the rate in effect 1-year prior to the effective date of the proposed reduction, by more than the proper percentage in paragraph (vi) of this section.

(iv) The carrier or freight forwarder will also be required in the letter to certify that the rates or provisions do not exceed the amount allowed by section 10708(d)(3)(A or B), and the rates or provisions fall within the appropriate zone; also, if the rate is above the rate in effect one year earlier by more than the proper percentage in paragraph (vi) of this section, the carrier or freight forwarder must include in the statement whether the proposed rate has been subject to general rate increases during the previous year, what percent increase was taken, the bureaus which published the increase, and the effective date.

x x x

(vi) At the end of each one-year period after October 23, 1986, the zone of rate freedom percentage will be automatically increased by 5 percentage points, in the absence of Commission action to the contrary. The following table sets forth the effective date of each zone expansion for the 10 years following adoption of these rules.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. §1343 or §1344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. §0922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

SUPPLEMENTAL INFORMATION:

Leaseway, in a related proceeding -- docketed as No. MC-F-17793 -- is seeking an exemption from the requirement of prior Commission approval for its acquisition of control of two motor carriers now owned by The Lishon Corporation: Arco (No. MC-52657) and Nu-Car Carriers, Inc. (Nu-Car) (No. MC-22182). That proceeding concerns the motor carrier aspects of the proposed transaction.

This proceeding concerns the property broker aspects of the proposed transaction. Arco holds License No. MC-52657 (Sub-No. 765), issued August 11, 1986, authorizing it to operate as a broker of general commodities (except household goods), between points in the United States. Our regulation at 49 CFR 1181.32(b) provides that "If there is a change in the control of a corporation ... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." The record suggests that the proposed change in control of Arco will be in the public interest, since it will allow Arco to continue to perform service to the public as a property broker as part of a well established and highly experienced family of transportation enterprises.1/

Public comment is invited on the question, whether the change in control of Arco is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for issuance of a decision, in accordance with 49 CFR 1181.32(b).

1/ Leaseway controls the following motor and water carriers of property: AMAC Trucking, Inc. (MC-140619); Anchor Motor Freight, Inc. (MC-808); Automotive Transportation Systems, Inc. (MC-183196); Better Home Deliveries, Inc. (MC-150511); Chariton Transport (Quebec) Limited (MC-141250); Contract Trucking Corporation (MC-156146); Cryogenic Carriers, Inc. General Information.

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

WILL BE PUBLISHED IN THE FEDERAL REGISTER on September 30, 1986

49 CFR PART 1043
CLARIFICATION OF INSURANCE REGULATIONS

AGENCY: Interstate Commerce Commission.

ACTION: Final Rule.

SUMMARY: The Commission is adopting a final rule to clarify its regulations under §1043.7(d), Title 49 of the Code of Federal Regulations. The change would clarify the fact that Forms BMC-35 and BMC-36 are the prescribed forms for use in cancelling certificates of insurance and surety bonds filed with this Commission in behalf of motor carriers and freight forwarders and property brokers, respectively. No other notice will be accepted by the Commission; furthermore, notice to state bodies, carriers, forwarders or brokers will not constitute a notice to the Commission, with regard to our thirty (30) days notice of cancellation requirement. This requirement cannot be waived. The appropriate revision in the Code of Federal Regulations will be made to reflect this action.

EFFECTIVE DATE: This decision is effective on September 30, 1986.

FOR FURTHER INFORMATION CONTACT:

Heber P. Hardy
(202) 275-7148

or

Alice K. Ramsay
(202) 275-0854

SUPPLEMENTARY INFORMATION:

Section 1043.7(d) of Title 49 of the Code of Federal Regulations does not specify that Forms BMC-35, Notice of Cancellation, Motor Carrier policies of insurance under 49 U.S.C. 10927, or BMC-36, Notice of Cancellation, Motor Carrier and Broker surety bonds are required to be used in notifying the Commission of cancellation of such coverage. Because of this omission, it appears that there could be some confusion with respect to the Commission's intentions in this regard.

Since the referenced forms are included in Part 1003 List of Forms (1003.3, Insurance and surety bond forms) of the CFR, we assumed it would be clearly understood that these forms (BMC-35 and BMC-36) are required to be used in cancelling the respective insurance coverages. However, to eliminate any possible confusion in this regard, we will revise the applicable section of the CFR to clearly reflect our intentions.

Accordingly, under 49 U.S.C. 10927, we shall revise the regulations at 49 CFR 1043.7(d), as set forth in the appendix, to reflect this action. Because this rule revision is intended merely to clarify our regulations, it is issued here in final form. In addition, comment is not required (5 U.S.C. 553(b)(A)).

This action does not significantly affect the quality of the human environment or the conservation of energy resources.

List of subjects in 49 CFR, Part 1043:
Insurance; Motor carriers; Surety Bonds.

Dated: September 22, 1986.

By the Commission, Chairman Gradison, Vice Chairman Simmons, Commissioners Sterrett, Andre, and Lamboley.

NORETA R. McGEE
Secretary

(SEAL)

APPENDIX

Part 1043 of the CFR is amended as follows:

Part 1043 - SURETY BONDS AND POLICIES OF INSURANCE

1. The authority citation for 49 CFR Part 1043 continues to read as follows:
Authority: 49 U.S.C. 10101, 10321, 11701, 10927; 5 U.S.C. 553.
2. Paragraph (d) of §1043.7 is revised to read as follows:
§1043.7 Forms and procedures.
xxxxx

"(d) Cancellation notice. Except as provided in paragraph (e) of this section, surety bonds, certificates of insurance and other securities or agreements shall not be cancelled or withdrawn until 30 days after written notice has been submitted to the Commission at its offices in Washington, D.C., on the prescribed form (Form BMC-35, Notice of Cancellation Motor Carrier Policies of insurance under 49 U.S.C. 10927, and BMC-36, Notice of Cancellation Motor Carrier and Broker Surety Bonds, as appropriate) by the insurance company, surety or sureties, motor carrier, broker or other party thereto, as the case may be, which period of thirty (30) days shall commence to run from the date such notice on the prescribed form is actually received by the Commission."

SUPPLEMENTAL INFORMATION:

UTC, an international freight forwarder licensed by the Department of the Treasury for customs clearance authority for import cargo, is authorized by this Commission in License No. MC-153716 to operate as a broker of general commodities (except household goods), between points in the United States. UTC is a wholly owned subsidiary of Transway International Corporation (Transway). The proposed transaction involves the acquisition of the entire stock of UTC by its current management (the Lewis group), for continued operation of the corporation as an independent entity. Except for the change in the ownership of UTC, it will continue to operate as at present. The members of the Lewis group, i.e., the officers who will acquire control of UTC, are: R.B. Lewis, L. Piovano, J.L. Rossi, R.H. Lange, N.L. Coble, J. Belby, R. Davis, R. Garcia, and J. Fucarino.

Our regulation at 49 CFR 1181.32(b) provides: "If there is a change in the control of a corporation... which holds a broker license, an application must be filed with the Commission describing the change and offering proof that the change is not contrary to the public interest." The record suggests that the proposed change in control of UTC will not be contrary to the public interest, since it will have no impact on UTC's day-to-day operations.

Public comment is invited on the question wheter the change in control of UTC is or is not contrary to the public interest. After a 30-day comment period, this proceeding will be referred to the Motor Carrier Board for the issuance of a decision.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

PREMIUM TANK LINES, INC. -- PURCHASE EXEMPTION -- NANCE & COLLUMS, INC.

Petitioners' representative:
Harold D. Miller, Jr.
P.O. Box 22567
Jackson, MS 39225-2567

Comments should refer to No. MC-F-17763.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the purchase by Premium Tank Lines, Inc. (Premium), a non-carrier, of the interstate operating authority of Nance & Collums, Inc. (Nance & Collums) (MC-116300) in Certificate No. MC-116300 (Sub-No. 95), as well as certain other assets. The certificate primarily authorizes the transportation of various liquid bulk commodities between points in Alabama, Louisiana, and Mississippi, on the one hand, and, on the other, points in the contiguous United States; it also authorizes, however, dry bulk transportation, as well as a general commodities service nationwide for the United States Government.

Nance & Collums presently conducts nonbulk and liquid and dry bulk operations as a common and contract carrier throughout a substantial portion of the United States. Premium is a wholly-owned subsidiary of The Dewey Corporation (Dewey), which was formed for the purpose of acquiring all of the capital stock of Miller Transporters, Inc. (Miller) in an exchange of stock with Miller's stockholders, and to own Premium's stock. Miller is an interstate common and contract carrier of primarily bulk commodities, holding authority in Docket No. MC-107002; it also holds various intrastate authorities. Thus, consummation of the subject transaction, following consummation of the stock exchange between Dewey and Miller which is now in progress, would result in control by Dewey and its stockholders of two carriers -- Miller and Premium. NOTE: Premium also seeks temporary authority to lease the above-described rights and certain other Nance & Collums assets, pending final disposition of the exemption petition.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

Please direct status inquiries of motor carrier applications to the numbers listed below. If the docket number ends in:

THOMAS L. COOK AND H.L. COOK -- CONTINUANCE IN CONTROL EXEMPTION --
COOK MOTOR LINES, INC., AND CONCEPT FREIGHT SERVICE, INC.

Petitioners' representative:
David A. Turano, Esq.
Baker & Hostetler
65 East State Street
Columbus, OH 43215

Comments should refer to No. MC-F-17784.

Under 49 U.S.C. 11343(e), the Commission has exempted, subject to public comment, the continuance in control by Thomas L. Cook and H. L. Cook, individuals, of Cook Motor Lines, Inc. (CML) (MC-106451) and Concept Freight Service, Inc. (CFS), a non-carrier, upon a grant of authority to CFS in its initial application pending in Docket No. MC-195396. CML holds certificated authority to transport general commodities (with the usual exceptions), between points in the United States, and contract carrier authority to transport general commodities (with the usual exceptions), between points in the United States (except Alaska and Hawaii), under continuing contract(s) with commercial shippers or receivers of such commodities. CFS seeks similiar common and contract carrier rights.

Thomas L. Cook is President and a minority shareholder of CML, and Treasurer and a 50 percent shareholder of CFS; he is also Vice President and sole shareholder of Phoenix Brokerage, Inc. (Phoenix), a licensed property broker (MC-175281). H. L. Cook is Chairman and majority shareholder of CML and a 50 percent shareholder of CFS. Thus, upon issuance of authority to CFS, Thomas L. Cook and H. L. Cook will control two regulated carriers -- CML and CFS.

SECTION 5a APPLICATION No. 23

MIDDLE ATLANTIC CONFERENCE - ASSUMPTION OF STEEL CARRIERS
TARIFF ASSOCIATION, INC., FUNCTIONS

AGENCY: Interstate Commerce Commission.

ACTION: Notice of clarification of prior decision.

SUMMARY: By petition filed July 30, 1984, Middle Atlantic Conference (MAC), a motor carrier rate bureau, seeks reconsideration of the Commission's June 27, 1984, decision partially approving proposed amendments to MAC's pending rate agreement that would accommodate a proposed merger with Steel Carriers Tariff Association, Inc. (STA), also a motor carrier rate bureau. Alternatively, MAC requests a clarification of that decision. See Middle Atlantic Conference - Assumption of Steel Carriers Tariff Association, Inc., Functions, 49 Fed. Reg. 27643 (July 5, 1984). That decision specifically disapproved two amendments that would broaden MAC's territorial scope for collective ratemaking activities with respect to effective STA tariffs. We will clarify our prior decision to specifically disapprove the amendments to the extent the territorial scope of the amendments exceeds the approved territorial scope of STA's rate bureau agreement.

EFFECTIVE DATE: This clarification is effective on October 6, 1986.

FOR FURTHER INFORMATION CONTACT:

Robert G. Rothstein (202) 275-7912 or Louis E. Gitomer (202) 275-7691

ENERGY AND ENVIRONMENTAL STATEMENT

This action will not significantly affect either the quality of the human environment or conservation of energy resources.

Authority: 49 U.S.C. 10321 and 10706.

Decided: September 26, 1986.

The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.

General Information

For all Decision Notices: Permanent Authority, Finance and Restriction Removals.

(1) Applicant's representative is required to mail a copy of an application, including all supporting evidence, within three days of a request and upon payment to applicant's representative of $10.00.

(2) For applications filed pursuant to 49 U.S.C. 11343 or 11344 amendments to requests for authority will not be accepted after the date of publication of the application. For all other applications amendments to the request for authority are not allowed.

(3) Some of the applications may have been modified prior to publication to conform to the Commission's policy of simplifying grants of operating authority or to conform to the special provisions applicable to restriction removal.

For all decision notices: Permanent Authority, Motor Carriers, Water Carriers, Brokers and Freight Forwarders.

(1) In the absence of legally sufficient opposition in the form of verified statements filed on or before 45 days from date of publication (or, if the application later becomes unopposed), appropriate authorizing documents will be issued to applicants with regulated operations (except those with duly noted problems) and will remain in full effect only as long as the applicant maintains appropriate compliance. The unopposed applications involving new entrants will be subject to the issuance of an effective notice setting forth the compliance requirements which must be satisfied before the authority will be issued. Once this compliance is met, the authority will be issued.

Within 60 days after publication an applicant may file a verified statement in rebuttal to any statement in opposition.

(2) All applications are for authority to operate as a motor common carrier in interstate or foreign commerce over irregular routes, unless noted otherwise. Applications for motor contract carrier authority are those where service is for a named shipper "under contract." Applications filed under 49 U.S.C. 10922(c)(2)(B) to operate in intrastate commerce over regular routes as a motor common carrier of passengers are duly noted.
